INTRODUCING

A contemporary power catamaran

After breaking into the market and producing two successful power catamarans Leopard Catamarans and their expert team of builders and designers have collaborated to produce an all new, luxury powercat focused on stability, blue-water performance and efficiency.

The newest member of the power fleet, the Leopard 51 Powercat, brings with her a multitude of exciting features, including a sleek design, a large forward cockpit, multiple lounging areas, an expansive flybridge, and a completely redesigned interior upgraded with modern appliances.

This contemporary catamaran is economically efficient, using less fuel than previous models. This is due to the superior standard engines and the redesigned under body of the powercat.

She also incorporates a brilliant ergonomic layout that makes maneuvering around the yacht comfortable and easy. The spacious side decks and open concept make getting from the front of the yacht to the back of the yacht quick and simple.

The Leopard 51 Powercat combines the best from our sailing fleet with the luxury and ease of a power yacht.

CRAFTSMANSHIP

Stability, range and luxury

This new breed of power catamaran boasts elegance, economic efficiency, and focuses on performance. Designed by Simonis Voogd Design and built by world renowned Robertson & Caine, this powercat is blue-water ready and built to the highest standards.

The sleek hulls of the Leopard 51 Powercat allow her to reach speeds of 20 knots and top speeds of 25 knots. Both agility and efficiency are paired perfectly, as the Leopard 51 Powercat has enough range to go from Florida to New York without refueling.

She also features additional stability which can't be matched by similar sized monohull powerboats. This yacht has the capacity to easily navigate through turbulent conditions and is delivered to each destination on her

own bottom from Cape Town, South Africa. Her many other attributes include an ergonomic layout with an open design, making transitioning from the aft cockpit to the bow seamless and easy. She also includes the option of an interior steering station in addition to the exterior helm station located on the flybridge.

INTERIOR

Modern design and a customizable layout

The Leopard 51 Powercat is simply unsurpassed in comfort by other traditional monohull powerboats. She offers a three or four cabin layout, with the option for separate crew cabins. You can personalize the yacht's interior to your individual needs.

The choice of a three cabin layout features a master cabin in the starboard hull with a walk around queen-size bed. A private ensuite head is located right outside of the master cabin in the forward part of the hull. Also located in the starboard hull is a comfortable lounge area and desk with an abundance of hanging lockers, drawers and shelves.

In the port side hull, two guest cabins have been carefully designed to maximize comfort and practicality. Well-ventilated with opening hatch and ports, the cabins provide a comfortable space to relax, day or night. Excellent lighting and plenty of storage with full size hanging lockers add the practicality and comfort of the yacht. The forward guest cabin also features a storage area in the forepeak or an optional berth.

The heads on this powercat are spacious and feature separate shower stalls and corian wash basins with mixer taps. They also include a mirrored vanity unit with domestic-sized marine toilet.

COMFORT

An abundance of space and natural light

The redesigned interior of the Leopard 51 Powercat focuses on spacious open living, comfort, and new design elements. Exciting new features include recessed lighting under the cabinets and bench seating, new cabinetry and appliances, and additional storage space in the galley.

The open saloon area with seating in a wide U shape has enough room for eight guests. This area is filled with natural light and stunning views from the panoramic windows. This area is filled with natural light and the panoramic windows afford the opportunity for stunning views.

The renovated galley leaves little to be desired. Enjoy prepping for each meal with deep side-by-side sinks and corian countertops. With plenty of storage and cabinet space, you can keep all the luxuries of home with you no matter where your journey takes you.

INNOVATION

The Leopard Leap

The Leopard 51 Powercat carries the pedigree and performance that is expected of a Leopard catamaran. The bridge deck offers continuous indoor and outdoor living space with direct access from the forward cockpit to the aft cockpit. Also, the large flybridge includes enough seating for up to eight and an outdoor kitchen. With direct access from the flybridge, this yacht features an open lounging platform, perfect for sunbathing, relaxing and enjoying the sunset.
