LEOPARD 58

INTRODUCING

Leopard Catamarans is excited to introduce the new flagship of the Leopard line, the all new Leopard 58. Expertly crafted by world renowned Robertson and Caine, the Leopard 58 stays true to Leopard Catamarans sleek and innovative style. This luxurious catamaran offers the option of 2 to 6 cabins, and like the award winning Leopard 44 and Leopard 48, the Leopard 58 features a unique forward cockpit.

Another intriguing feature of the Leopard 58 is the expansive flybridge with seating for up to 12 people. The flybridge, the aft deck and forward cockpit are all covered in composite teak decking, a light weight high impact simulated teak. The large open aft deck offers ample space for alfresco dining or lounging.

Leopard Catamarans reputation for building off-shore capable catamarans is reflected in the Leopard 58 design. The performance, spacious accommodations, ergonomic design and multiple outdoor living spaces make for an exceptionally well-rounded sailing catamaran.

The Leopard 58's intelligent design matches that of her predecessors. When building this yacht, the team of award winning designers at Robertson and Caine drew upon both the success of previous models and from the feedback of over 1000 Leopard owners world-wide. This allowed the Leopard design team to take the best features from previous Leopard models, while still creating an entirely new and exciting catamaran.

EXTERIOR

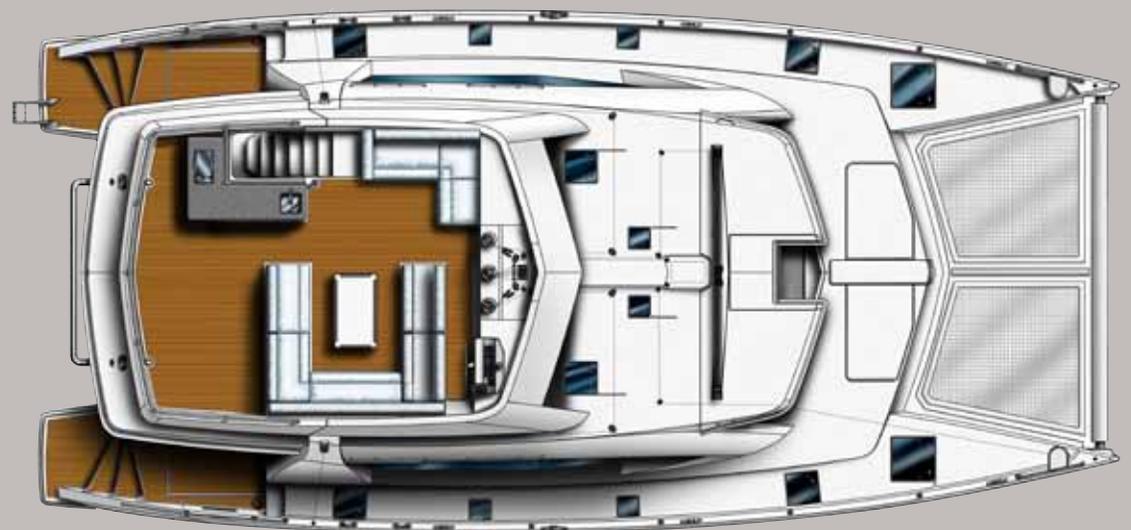

CRAFTSMANSHIP

From the modern lines to the proven craftsmanship, the Leopard 58 is in a class of its own. This sleek catamaran features a hard covered fly-bridge with sun-deck, a forward cockpit with direct access from the saloon and foredeck, large forward facing saloon windows, wide side decks, multiple outdoor dining areas, and much more. The Leopard 58 is built with the highest quality materials, making this yacht not only beautiful, but also safe and comfortable on any passage.

The Leopard 58's covered aft deck with easy access to the water creates a unique outdoor living space where her shaded forward cockpit offers panoramic views while enjoying the breeze.

Priding itself on its outdoor living space, the fly-bridge on the Leopard 58 leaves nothing to be desired. This flybridge is the perfect location for lounging, cocktails and meals, with seating for up to 12 guests under a hard top bimini with a sundeck and wet bar aft.

OPEN LIVING

The spacious Leopard 58's interior with its casual yet elegant design is as comfortable for a family lunch as it is for a black tie affair. The innovative skylights and large windows bring the outside into the saloon without the weather. With plenty of comfortable seating and lounging areas, the Leopard 58's 750 sq ft saloon is sure to impress. The open galley / bar offers unparalleled views and enough space to prepare world class cuisine.

The open bridge deck offers continuous indoor and outdoor living space from the forward cockpit to the aft swim platform. This open design features different living areas that can accommodate a modern life-style. The open galley design blends effortlessly into the salon and living area, making it the social and culinary hub of the yacht.

The Leopard 58 is the first production catamaran that can be ordered in a 2,3,4,5 or 6 cabin layout, with the option for separate crew cabins. You can personalize your yacht's interior lay out to your individual needs, as well as your choice of selected colors. The choice of the master cabin in the starboard hull features a walk around queen sized bed, a comfortable lounge area and desk, a private dressing area and vanity with sliding doors and an abundance of hanging lockers, drawers and shelves. The en-suite head features double sinks and stall shower.

What other production catamaran in this size range offers the option of a second master cabin? Only on the Leopard 58 do you have a choice of a spacious master cabin on the bridge deck level with its own private outdoor living space. Imagine waking up with the gentle breeze coming into your cabin and the unobstructed views from floor to ceiling forward facing windows. Step outside and enjoy your breakfast on your private veranda. All interior living areas can be equipped with individual climate controls. Whether you are searching for a yacht to travel the world as a couple, or you are looking for a yacht to take your friends and family cruising, the Leopard 58 is the perfect yacht for any ocean or occasion.

INNOVATION

THE LEOPARD LEAP

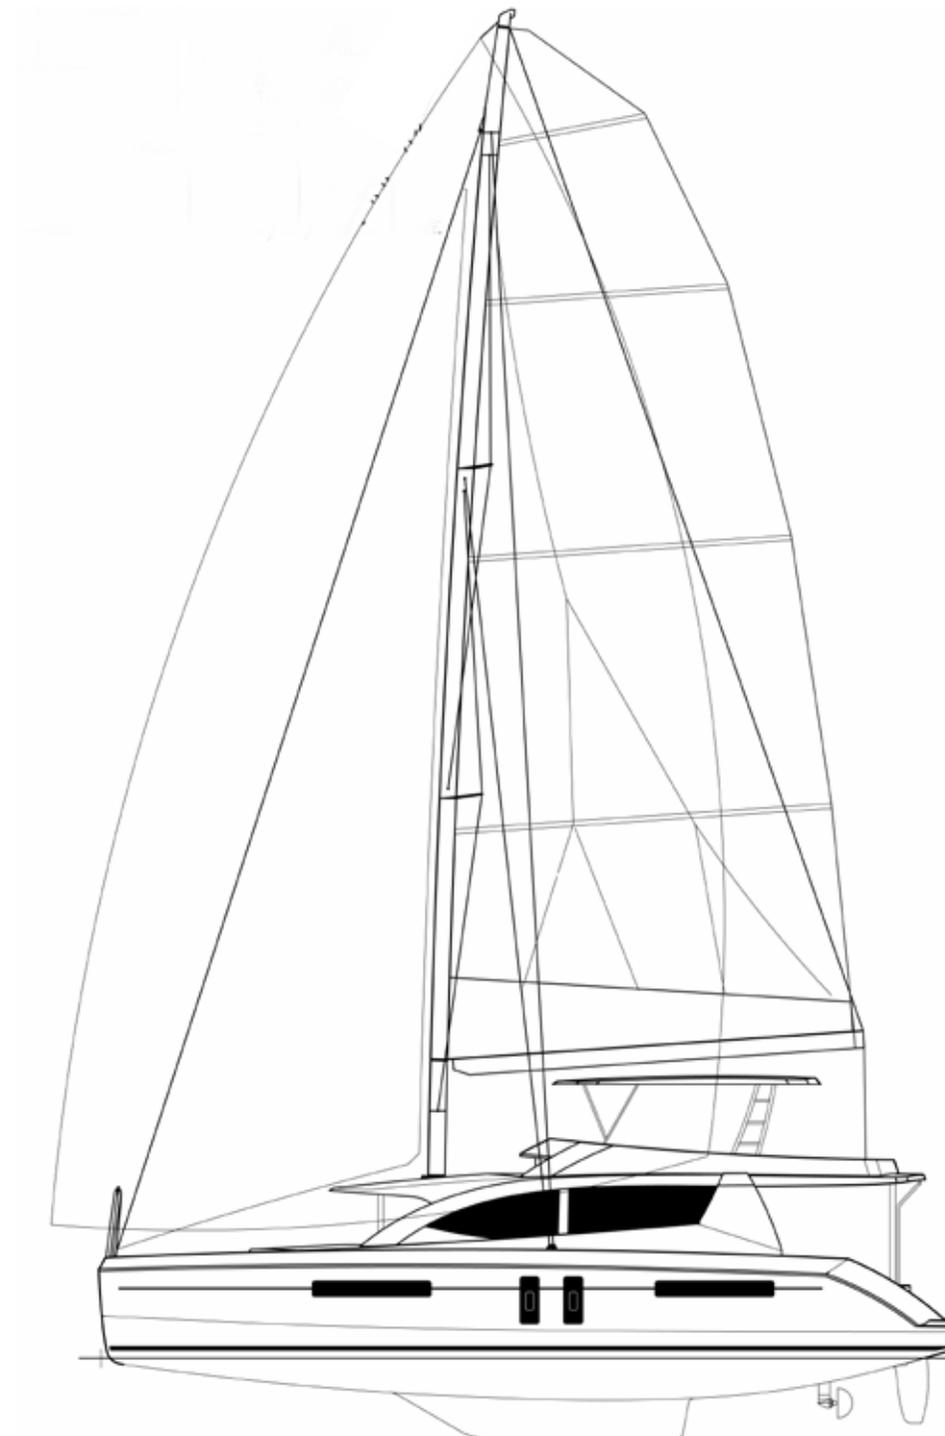

From the design tables of an award winning design team to the comfort and security of a trusted and world renowned manufacturer, the Leopard 58 carries the pedigree and performance that is expected of a Leopard catamaran.
